

download xampp

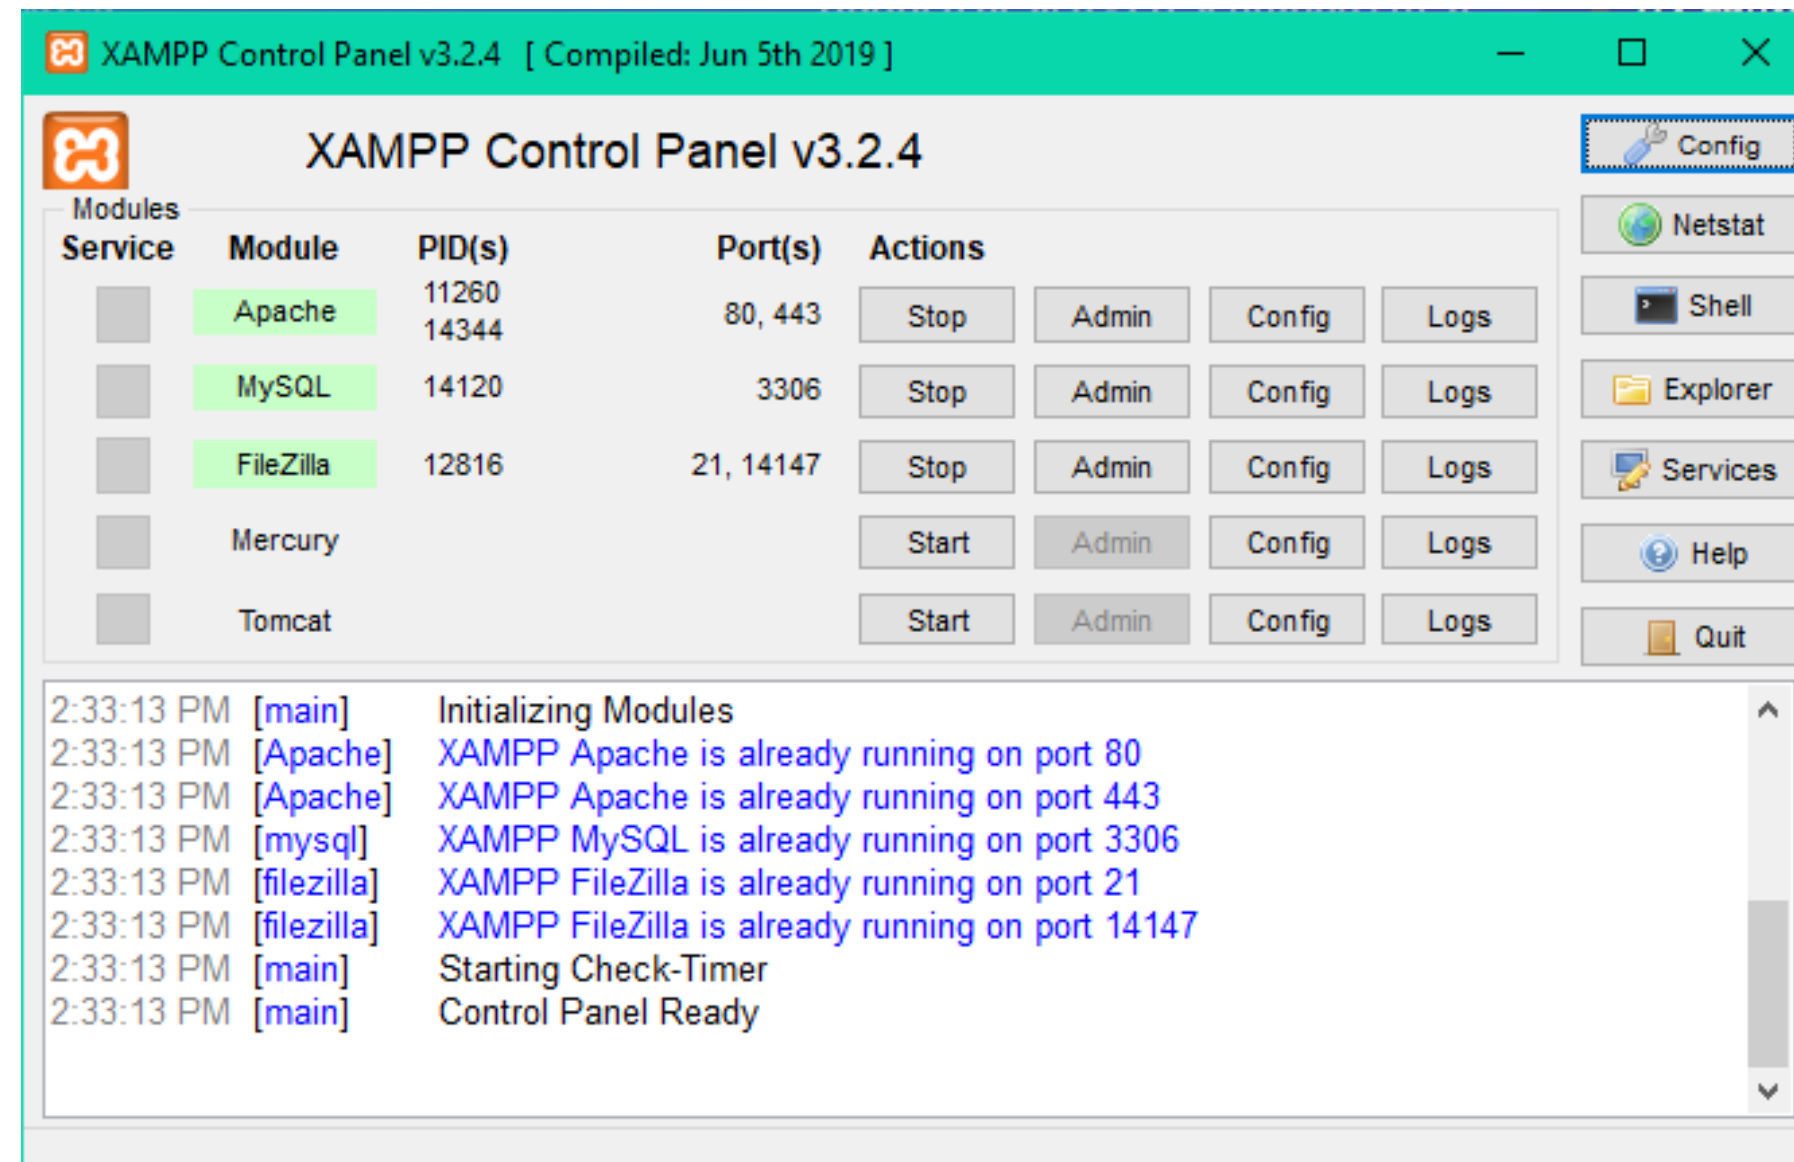

install

click start

apache

MySQL

FileZila

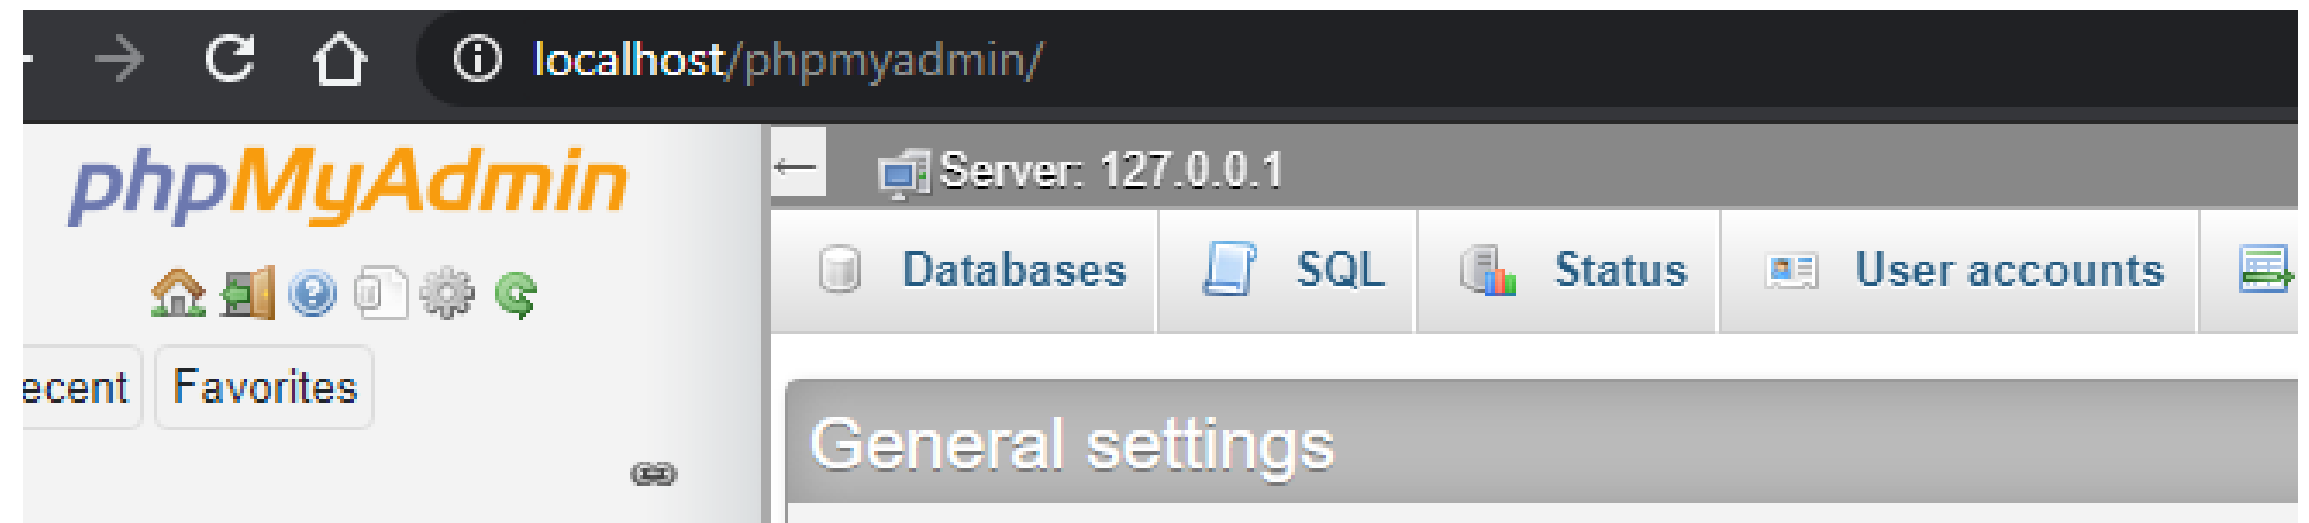

folder: PhpProject9

save folder to:

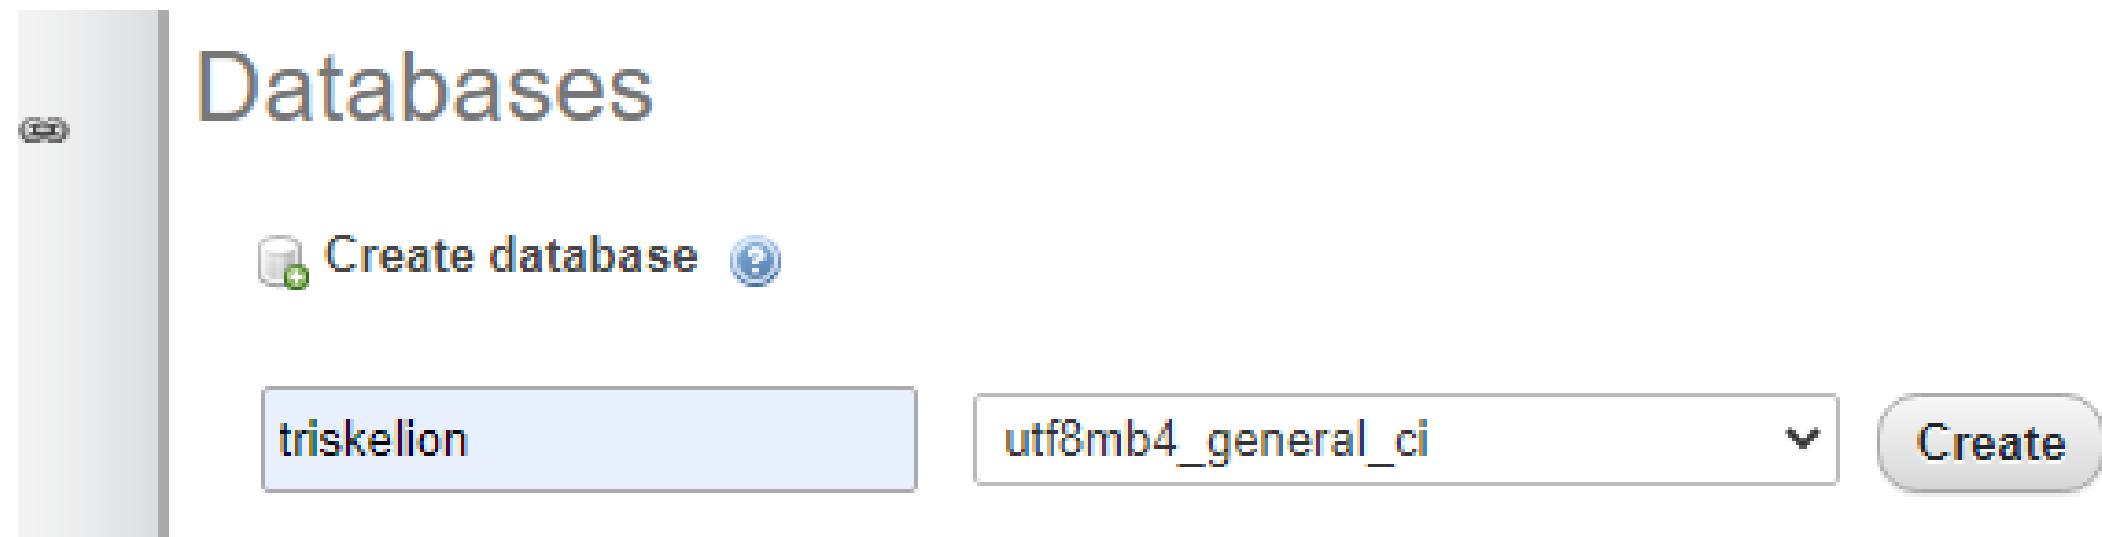

local c: xampp\htdocs

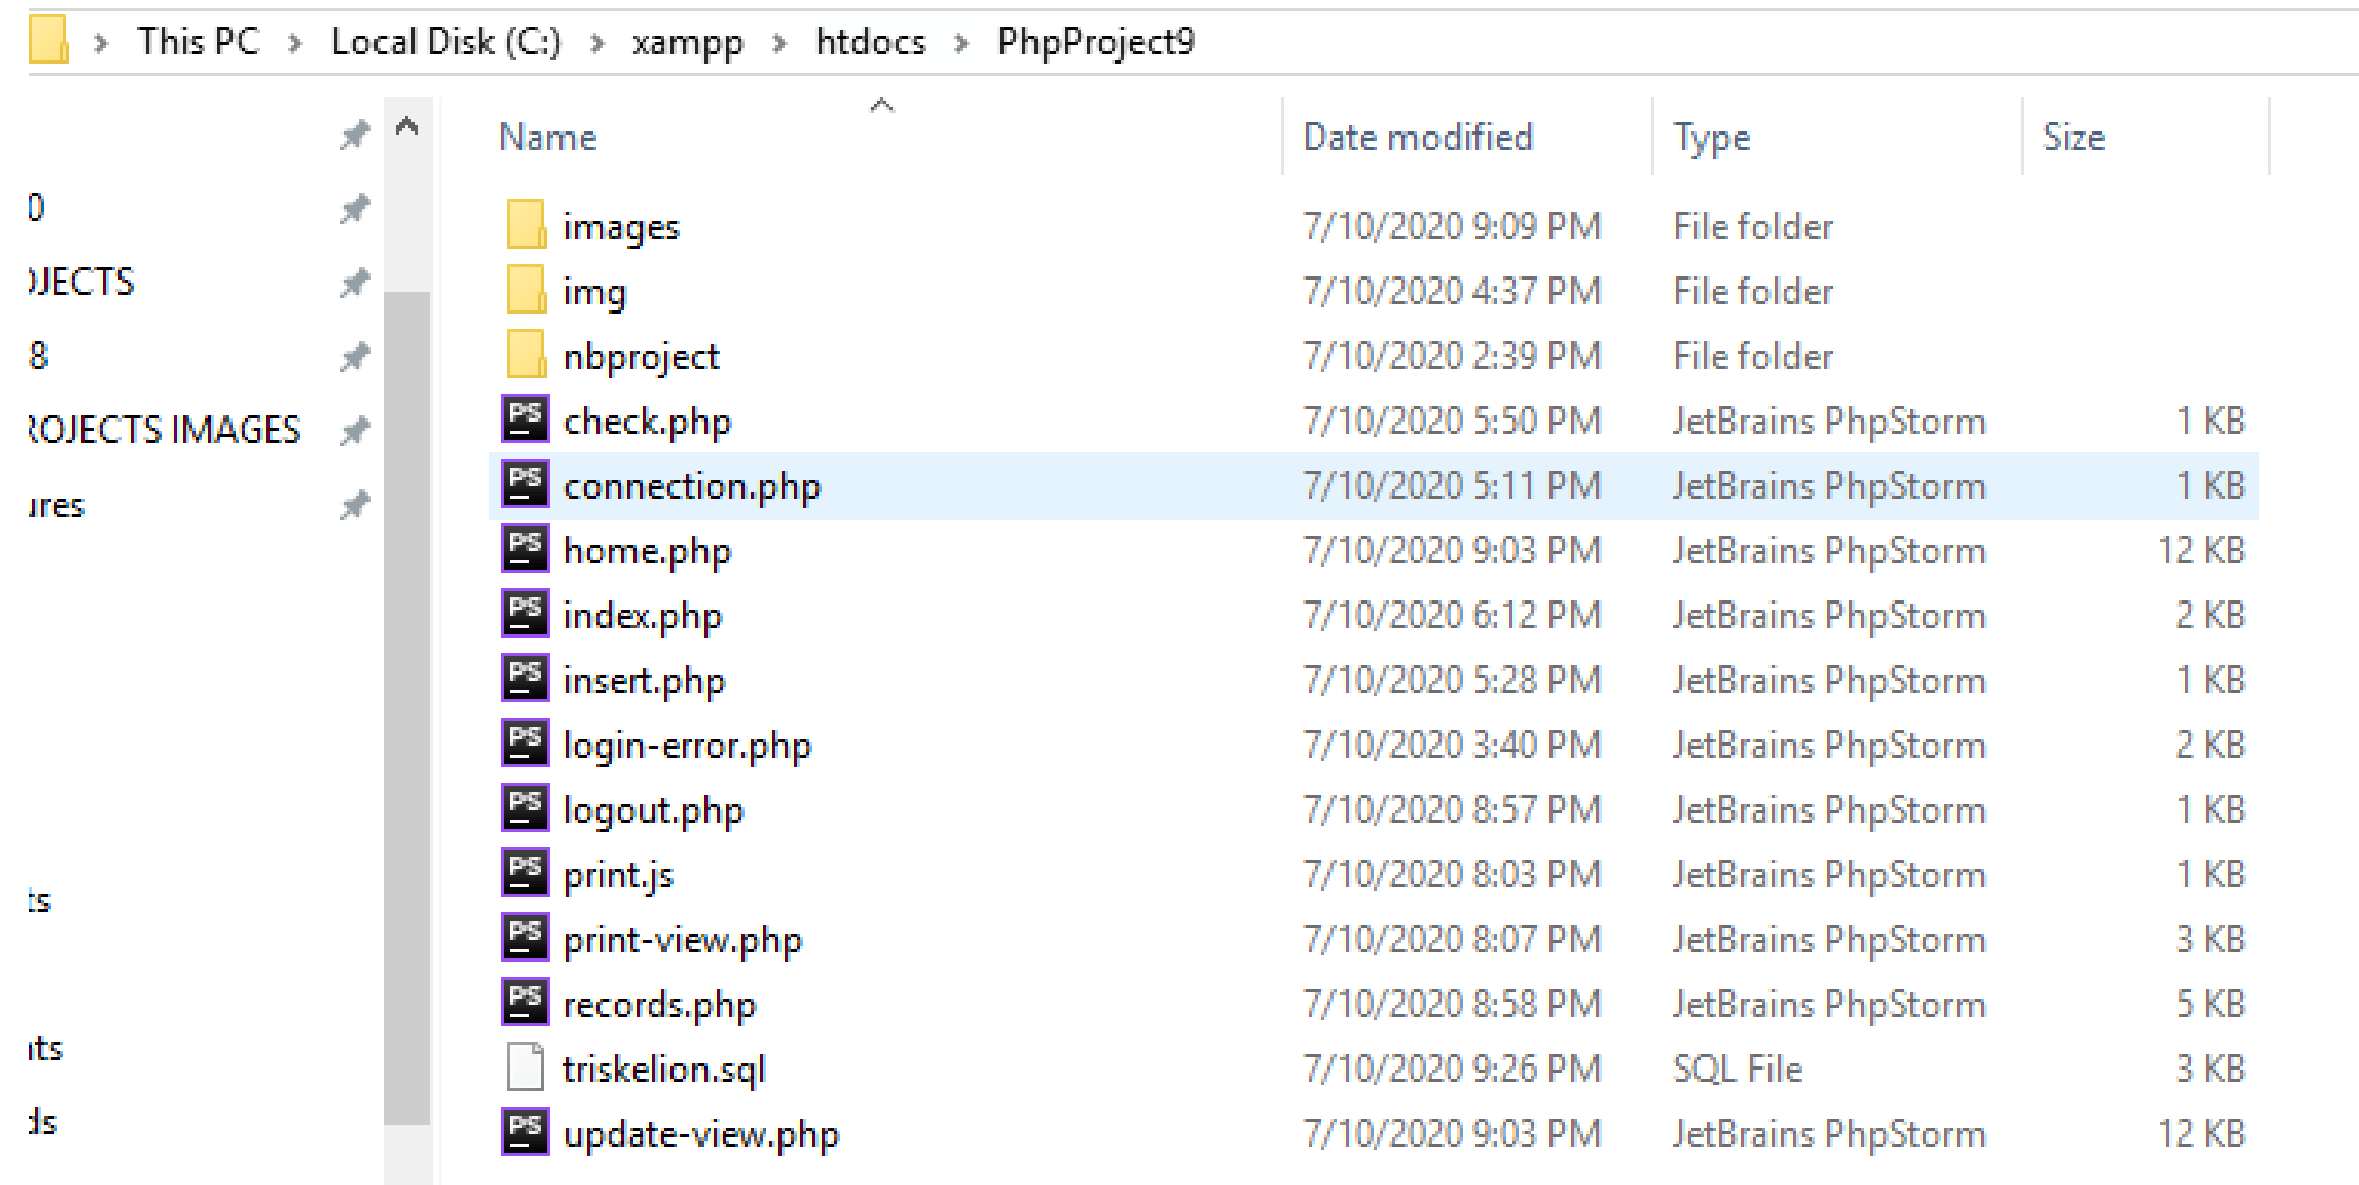

open browser  
type:  
localhost/phpmyadmin

click new and type  
triskelion  
click create button

click import  
and upload file  
triskelion.sql  
then click go

The screenshot shows a Windows File Explorer window with the address bar displaying the path: This PC > Local Disk (C:) > xampp > htdocs > PhpProject9. The left sidebar shows a tree view with folders like 'PROJECTS' and 'PROJECTS IMAGES'. The main pane displays a list of files and folders. The 'connection.php' file is selected and highlighted in blue.
